

Care Package UK

Care Package UK is here to help deliver food and basic supplies to families and individuals who are listed on the [governments increased risk list](#), and are therefore stuck in 12 week isolation. We will be supporting our active beneficiaries in and around Great Barr, Birmingham for as long as the government recommend they isolate. Care Package UK is a non-profit organisation and is set to launch on 2nd April 2020. As a new organisation we will be starting with a smaller number of beneficiaries to ensure we can cope with our capacity, before expanding to more postcodes and people (see below).

*** We do not charge for our services - you will only pay for your food shop! If you would like to make a voluntary donation then use the details at the bottom of our website.**

The current postcodes we're covering are **B44, B42, and B74.**
